About the Leading Man

Although millions play, only a few have the skill to cash in on the explosion fuelled by maximum buy-in no-limit games. Whether you're a novice or a veteran, an online player, casino regular, or home game specialist, Largay shows students what works and what doesn't, common mistakes, and how to get beyond them. Today, many of his students are full-time professional players. If you're aspiring to become a professional or simply to play like one — **No-Limit Texas Hold'em** will help you make it happen.- watch and learn!

About the BookShort Film

The car is headed up the highway. Angel Largay, poker expert and teacher - extraordinaire, rides with two 'award-winning' filmmakers Paul and Bert, who have come up with that they *think* is an ingenious plan to raise money for their final big movie scene. As Angel explains how he came to know so much about Texas Hold'em – learning in the Alaskan oil fields, practicing all night in his trailer, playing all day with the riggers – he becomes quite enamoured of the idea of making a film about his life and his new book, **No-Limit Texas Hold'em: A Complete Guide**. Ever heard of the Golden Rule? He who has the gold, makes the rules! Watch what happens when Angel is *very* successful at the table!
